

HAPPY THANKSGIVING FROM ALASKA WILDBIRD!

We at Alaska Wildbird would like to take this opportunity to thank all our wonderful supporters, who continue to help us in our efforts to mitigate the effects of the Valley's population growth on the wild birds that make our world so special. We have had some very successful rehabilitation efforts this month - and these healthy bird releases took place with help and cooperation of a dedicated public. In the midst of success, we also face sadness; a mallard with a deep wing-break could not be recovered, and an eagle was found expired on the roadway. We live in a complicated world, but we must feel that our successes make the extraordinary dedication of the public and volunteers worthwhile.

We can only continue these endeavors through your interest and support. We at this time particularly want to acknowledge the help we have received through the Pick.Click.Give. program.

Give a bird program as a Christmas gift!

A fun and unique gift for a group, friend, or family member can be the gift of an education program, given by our bird ambassadors and volunteers. We can tailor these programs for age group, with lots of fun games and activities for the younger set, or detailed bird species descriptions for adults. It is amazing to be up close to a wild and intelligent education bird - and these programs are loved by birders and birds alike.

Birds that are injured such that they cannot be released come to you for these education programs. The birds have a gentle temperament, and have been trained to become comfortable with being close to people. But...they never lose their wild and wonderful natures, and seeing them is the best way to understand their amazing charismatic features. Programs are offered at a reasonable cost - check out our Website (<http://www.akwildbird.org/index.php/education/live-bird-programs>) for the request form, and to see which birds are available, or call 892-2927.
